Dear Captain Miller,

My wife and I would like to take this opportunity to thank you for your phone calls and concern for us after our most unfortunate experience on I 95 south the night of March the 8<sup>th</sup> 2005.

You were the only one outside of St. Johns County to respond to our correspondence.

Our letters, which included one to your illustrious Governor Bush have been completely ignored and unanswered at this time. This certainly is not what Jean or I expected from a Bush.

But enough of the above, since we last talked Jean has had surgery on that leg to have a twelve inch plate installed with nine screws to hold it in place and strengthen it so that she should be able to walk as well as before. After two months in a wheel chair and some therapy she is coming along very well and is now walking without a cane.

Again we both want to thank you for your concern through your phone calls and hope that some corrections have been made so that some other poor unfortunate soul in the future does not have to go through what we did.

Again thank you and may God Bless you.

Yours truly
